

**Hg Consult, Inc.** was formed in 2010 as a consulting engineering and planning firm based and incorporated in Kansas City, Missouri. Hg Consult has three offices in Missouri (Kansas City, St. Louis and St. Joseph), as well as offices in Kansas City, Kansas; Denver, Colorado; Austin, Texas; and Waterloo, Iowa.

**Hg Consult is a full-service engineering and planning firm.** Hg Consult can provide full cradle-to-grave capabilities from initial planning to final construction engineering and inspection. More specifically, Hg Consult's expertise includes:

- Streambank Stabilization Design
- Levee Inspection
- Hydraulic and Hydrologic (H&H) Modeling
- Stormwater Design
- Utility Design
- Site Assessments
- Habitat Restoration
- NEPA Compliance
- Environmental Investigations
- Roadway design and geometrics
- Bridge and culvert design
- Construction engineering & inspection services
- Public information and outreach

**As an employer, we have taken a fresh approach to our staff and how we operate.** Our staff are well known and highly respected in the engineering and planning community - most of our senior professionals have previously worked at some of the largest firms in the country. We have complete workplace flexibility and all our staff are encouraged to office remotely. We are completely cloud-based in our operations. The trust and flexibility placed with our employees pays dividends to Hg Consult in efficiencies and to our clients in the quality of our product.

**Trusted leadership, quality work, practical approach, and open communication.** We are fully committed to providing professional consulting services that are of high quality, delivered on-time, and on or under-budget. You can trust our leadership to bring innovation and quality deliverables, all with an approach that is based on practical solutions and open communication.
